Moderated by Professor Justin Che-yuen WU

Souvenir presentation and photo-taking

# Shaw College

Named after its Founding Patron, Shaw College was made possible by the generosity of the late Sir Run Run Shaw, who donated HK\$110 million to The Chinese University of Hong Kong for the founding of the fourth constituent college.

Since 1989, Shaw College has been operating a scheme of visiting scholars and individuals, the objective is to invite every year an internationally distinguished scholar to visit the College to give lectures and to meet the teaching staff and students of the College as well as the University. Sir Run Run Shaw, Founding Patron of Shaw College, had once again put the College under a debt of gratitude by graciously consenting to our naming the scheme henceforth after him as the Sir Run Run Shaw Distinguished Visiting Scholar Scheme.

# Sir Run Run Shaw Distinguished Visiting Scholars (1989 - 2021)

# Biography

Professor Emily Ying-yang Chan is a clinical humanitarian doctor and global academic expert in public health and humanitarian medicine. She serves as Professor and Assistant Dean (External Affairs) at CUHK Faculty of Medicine, and has been appointed as the CEO of GX Foundation since 2019.

Professor Chan has received academic and technical training in clinical medicine, engineering and public health. She concurrently holds academic appointments at various institutions including Oxford University Nuffield Department of Medicine, Harvard School of Public Health, HKU Li Ka Shing Faculty of Medicine, and Collaborating Centre for Oxford University and CUHK for Disaster and Medical Humanitarian Response.

Globally, she has served in various technical consultation capacities for World Health Organization on Health Emergency & Disaster Risk Management Research Network and COVID-19 Research Roadmap Social Science Working Group. She is also a member of United Nations Office for Disaster Risk Reduction.

Professor Chan has published more than 400 international peer-reviewed scientific articles and 14 textbooks. Her research interests include disaster and humanitarian medicine, climate change and health, global and planetary health, Human Health Security and Health Emergency and Disaster Risk Management, and a lot more.

Professor Chan has been leading frontline humanitarian operations in disasters and emergencies in more than 20 countries. In recognition of her achievements, she had been awarded the Hong Kong Ten Outstanding Young Persons Award in 2004, Caring Physicians of the World Award in 2005, Ten Outstanding Young Persons of the World Award in 2005, Hong Kong Humanity Award in 2007, Leader of the Year Award in 2016, National Geographic Chinese Explorer Award in 2016, UGC Teaching Award in 2017, and National Teaching Achievement Award of People's Republic of China in 2018.
