Application: Interested students please send your CV to Ms. Joyce Ng of Shaw College at joyceng@cuhk.edu.hk by **30 April 2022**.

Company Background:

[Trinity Photonics](#) was founded in 2007 with HQ located in Hong Kong Science Park. By the Inspiration from Prof. Charles Kao (Father of Fiber-Optics) and 10+ years of R&D experience in EE and IE departments at CUHK, we invented a patented technology called "Growable Optical Network" which is believed to be the most advanced and stable optical network up to date. We have built 70+ Growable Optical Networks in Hong Kong for schools and government departments which serve 40,000+ people 7 x 24 concurrently. We are local professionals with the goal to serve the world with Growable Optical Networks. Let's join us and light up the city together!
